

COURSE SYLLABUS & FEES · 2026

Certificate Course in Medical Coding (CCMC) in Pune

iLearn CRI's 3-month Medical Coding course in Pune covers ICD-10-CM, CPT, HCPCS, anatomy refresh, and AAPC CPC exam prep — with structured placement at MNC payers, hospitals, and remote/freelance pathways.

DURATION	MODE	FEES	EMI
3 months	Live online & classroom (Pune)	₹40,000 + 18% GST	Available

Eligibility

Any life-sciences graduate (B.Pharm, B.Sc, B.Sc Nursing, BPT)
BDS, BHMS, BAMS, MBBS graduates
Working professionals seeking remote-friendly pharma careers
12+2 PCB students with strong English (limited seats)

Complete syllabus, module by module

01 Medical Terminology, Anatomy & Physiology

Medical terminology: prefixes, suffixes, root words
Body systems overview: cardiovascular, respiratory, GI, MSK, neuro
Anatomy fundamentals relevant to coding specialties
Physiology basics for understanding diagnoses and procedures
Common diagnostic tests and laboratory procedures

02 Introduction to Medical Coding

Healthcare reimbursement ecosystem: US, UK, India
Revenue cycle management and the claim cycle
Roles: coder, auditor, denials specialist, CDI specialist
Compliance frameworks: HIPAA, OIG, Anti-kickback statute
Career pathways: in-house, MNC, freelance/remote

03 ICD-10-CM (Diagnosis Coding)

ICD-10-CM structure: chapters, blocks, categories, codes
Official Coding Guidelines and conventions
Coding by body system with hands-on case studies
Z-codes, V-codes, and external cause codes
Sequencing principal vs secondary diagnoses

04 CPT (Procedure Coding)

CPT structure: Categories I, II, III
E/M services coding with 2021 and 2023 guideline updates
Surgery section: integumentary, MSK, cardiovascular, GI
Modifier usage: -25, -26, -59, -76, -78, -79
Anesthesia, radiology, pathology, and laboratory coding

05 HCPCS Level II

HCPCS structure and permanent vs temporary codes
J-codes for injectable drugs and drug administration
DME (durable medical equipment) coding
HCPCS-specific modifiers and their application

06 Coding Guidelines & Compliance

Bundling and unbundling concepts
National Correct Coding Initiative (NCCI) edits
Specialty coding: ED, inpatient, and outpatient differences
Risk Adjustment / HCC coding overview
Documentation integrity and CDI

07 Denial Management & Reimbursement

Common denial types: coding, eligibility, timely filing
Denial analysis and root cause identification
Appeal writing and resubmission strategies
Payer-specific guidelines and local coverage determinations
Revenue cycle KPIs: denial rate and clean claim rate

08 CPC Certification Prep

AAPC CPC exam structure: 100 questions, 4 hours
Time-management and exam-taking strategies
Full-length practice exams under timed conditions
Weak-area review and targeted practice
AAPC membership, credential maintenance, and job board access

Career outcomes

ROLE	AVERAGE CTC
Medical Coder (Trainee)	₹ 2.8–3.6 LPA
CPC-Certified Medical Coder	₹ 3.6–5.0 LPA
Senior Medical Coder (3–5 yrs)	₹ 5.5–7.5 LPA
Coding Auditor / QA	₹ 6.0–8.5 LPA
Risk Adjustment / HCC Coder	₹ 5.5–8.0 LPA
Freelance Medical Coder (remote)	₹ 4.0–9.0 LPA (variable)

Placement support built in

100% placement assistance for every student: resume calibration, mock interviews with practicing professionals, and direct introductions to 50+ pharma & CRO hiring partners. Average starting CTC across placements: ₹4.2L. Separate live online and classroom batches — same curriculum, same fees, same support.
